From the Anden Stud

Welcome to the **30th Annual Anden Stud Sale**. We are excited to present another outstanding line-up of quality stud stock.

In this year's sale we will be offering:

- **15 Specially Selected Anden White Suffolk Rams**
- **96 Anden White Suffolk Flock Rams**
- **12 Specially Selected Anden UltraWhite Stud Registerable Rams**
- **99 Anden UltraWhite Flock Rams**

Our on-property auction will once again be **interfaced with AuctionsPlus** for the entire sale. We trust this platform provides all potential buyers with the opportunity to view the lots prior to auction and purchase from Anden Stud on the day.

As we celebrate our **30th Annual On-Property Ram Sale**, we reflect proudly on more than three decades of breeding top-quality **White Suffolk sires**. It's been a pleasure to share our passion while improving breeding programs and pushing boundaries within the breed. Since the beginning, our objective has remained consistent: to provide clients with a **structurally sound performance-based product**, utilising **LAMBPLAN** and **ASBVs** to guide genetic selection.

We are pleased to once again present a **quality line-up of UltraWhite Rams** to suit a range of client needs, whether you're looking to reduce shearing and crutching, or simply to improve growth rates and structure in shedding flocks. The **UltraWhite breed** continues to lead the shedding sheep market, thanks to the adoption from Registered Stud Breeders in the use of **ASBV's** to assist in selection decisions based on genetic traits. With a strong focus on data collection and performance, we are truly excited about the direction this breed is heading.

Over the years, we've enjoyed building friendships with fellow breeders and have many fond memories from Field Days, Conferences, and Royal Shows.

Please note: This year we will **not** be offering a selection of Stud Ewes in the sale. However, **private sales of White Suffolk and UltraWhite ewes** are available, inspections are welcome by appointment.

We were once again proud to compete at the **Australian Sheep and Wool Show, Bendigo**, with 5 UltraWhite rams. We were thrilled when **Ram 241263 (Lot 113)** was awarded **Reserve Champion Ram of the UltraWhite breed**. Following this, we attended the **inaugural UltraWhite Showing at Hamilton SheepVenture**, where **241263 was awarded Grand Champion of the UltraWhite breed**.

As for **White Suffolk Ram 240171 (Lot 2)** who received a second place in his June drop class, was runner up to the eventual interbreed Champion Ram.

Participating in these events gives us the valuable opportunity to connect with fellow breeders, share experiences, and discuss both the challenges and the solutions facing our industry.

This year, we proudly present **222 lots**, made up of 111 White Suffolk Rams and 111 UltraWhite Rams. All sheep on offer are backed by years of **LAMBPLAN data**, strong **structural integrity**, and true **breed type**. As always, we pride ourselves on offering only the very best these breeds have to offer.

Thank you for your continued interest in Anden Stud. We look forward to welcoming you to our sale on **Thursday, October 2nd**.

Kind regards,
The Donnan Family

Flock History

Anden White Suffolks

The Anden White Suffolk Stud (Flock No. 91) was founded in 1989 by Andrew and John Donnan. The foundation flock was built using Suffolk ewes from Kerangie and Stone Haven Studs, with a sire base introduced from leading White Suffolk studs and elite home-bred sires.

In 2016, John (aged 86) sold his share of the stud to Joel Donnan. Having grown up on the farm and worked full-time since 2011, Joel brought a strong knowledge of sheep breeding and a commitment to building on Anden's reputation. From the beginning, Anden has been driven by a passion for delivering the best genetics to commercial producers, with results at market reflecting the consistent performance of Anden-bred rams. Over the years, the stud has also enjoyed much success in the show ring, particularly at the Royal Adelaide Show.

Anden UltraWhites

2017 marked the beginning of a new era with the launch of the Anden UltraWhite Stud. For many years prior, Andrew and Joel had been developing a consistent line of sheep with key traits including fertility, moderate birth weights, sound structure, and strong growth.

The UltraWhite breed was established by blending elite White Dorper genetics with our best-performing Viewdale Poll Dorset ewes, supported using high-performance UltraWhite semen from Western Australia. The result is a line of sheep with excellent muscling, high-yielding carcasses, sound fat cover, and strong do-ability and hardiness, combined with an efficient shedding ability.

In early 2021, the UltraWhite Sheep Breeders Association of Australia Inc. was formed, with the breed receiving its official code (24) and Anden registered as Flock Code 0002. Joel was elected President of the association in 2024 – recognition of over a decade of work dedicated to establishing and promoting the UltraWhite breed.

For the 2025 sale, 12 UltraWhite rams (Lots 112-123) have been specially selected as registerable stud sires, chosen for their outstanding structure and performance. Flock rams (Lots 124-222) have been equally scrutinised, ensuring we offer only the highest-quality sires to drive the breed and industry forward.

Anden Speckle Park Cattle

Over the past five years, Anden has invested in top genetics from across the Speckle Park breed, purchasing leading stud cattle and embryos to form the foundation of a high-quality herd. All calves are performance-recorded with BREEDPLAN to provide accurate EBVs and support data-driven selection.

The Speckle Park breed offers a unique combination of low birthweight, high marbling, docility, and exceptional doing ability – traits that align closely with the objectives of our sheep breeding program.

In 2025, the stud was rewarded with success both in the show ring and on sale day, highlighting the strength of the program. Stud and commercial bulls are available year-round, with inspections welcome by appointment.

Acknowledgement

We sincerely thank all existing and new clients for your ongoing support. At Anden, our focus remains clear – to provide the industry with genetics that represent the way forward across both our sheep and cattle enterprises.

Anden's Breeding Program

Driven by LAMBPLAN for Real-World Results

At Anden, we're committed to breeding rams that deliver where it counts – in the paddock and on the hook. By combining proven genetics with practical, on-farm experience, our goal is simple: to provide sires that drive productivity, efficiency, and profitability for commercial lamb operations.

Central to our program is **LAMBPLAN**, the industry's leading genetic evaluation system. Through Australian Sheep Breeding Values (ASBVs), we can objectively measure traits that impact real-world performance – from growth rates and muscling to maternal efficiency. This ensures every ram we breed is backed by both data and practical application.

The result? Rams that don't just look the part – they perform, consistently adding value to flocks and supporting the long-term success of our clients.

This catalogue includes ASBVs for the following key traits:

- **BWT – Birth Weight:** Lower = smaller lambs at birth.
- **WWT – Weaning Weight (100 days):** Higher = quicker early growth.
- **PWWT – Post Weaning Weight (225 days):** Higher = strong later growth.
- **PFAT – Fat Depth:** Balance for finishing ability.
- **PEMD – Eye Muscle Depth:** More muscle, better shape.
- **LMY – Lean Meat Yield:** Higher = more saleable meat.
- **DRESS – Dressing Percentage:** Higher = more carcase weight per kg liveweight.
- **LE-DIR - Lambing Ease (Direct):** Higher = fewer lambing problems.
- **IMF - Intramuscular Fat:** More marbling = improved eating quality.
- **SHRF5 - Shear Force:** Lower = more tender meat.

We've also included two key indexes:

- **LEQ Index (15 July 2025):** For producers wanting better eating quality, with balance across birth weight, growth, and other traits.

- **TCP Index:** A well-rounded terminal sire index that balances growth, carcase traits, and lamb survival – ideal for commercial lamb producers focused on overall performance.

Our Approach to Indexes & Breeding

At Anden, we see indexes as a **useful guide**, but not the whole story. Every flock is different, and ram selection should reflect your own ewe base, environment, and target market. That's why we encourage a balanced approach rather than relying too heavily on any single index.

Some indexes, such as **TCP** and **LEQ**, can place a lot of weight on traits like IMF and SHRF5, which often have lower accuracy. While eating quality is an important focus in our breeding, we believe these indexes sometimes overstate their value to commercial lamb producers.

Instead, we place greater emphasis on **individual ASBVs**, which gives a clearer, more balanced picture of a ram's genetic potential. This way, you can select sires that deliver across growth, muscling, efficiency, and sound structure — the traits that matter most in prime lamb production.

Our rams are run in large groups under commercial conditions, with performance data collected early and accurately. What you see in the sale team is a genuine reflection of how they will work in your paddocks.

Note:

ASBVs are based on data submitted by breeders and trained operators. They're reliable tools to guide selection but still estimates – not guarantees.

At Anden, our goal is simple: **to breed practical, profitable rams that deliver real results for our clients.**
