Joel holding Ewe 25-1009.

ORDER OF SALE FROM 12 NOON

221 lots comprising:

- **20 Specially Selected Anden White Suffolk Stud Rams (Lots 1-20)**
- **87 Anden White Suffolk Flock Rams (Lots 21-107)**
- **18 Specially Selected Anden UltraWhite Stud Rams (Lots 108-125)**
- **96 Anden UltraWhite Flock Rams (Lots 126-221)**

Total: 107 White Suffolks + 114 UltraWhites = 221 Lots

 **AuctionsPlus** will be operating for all lots

Please note: Light luncheon and drinks will be catered for on the day.

Anden Stud reserves the right to collect semen from any ram offered, for in flock use. The collection of semen is to be done at the convenience of the purchaser and at the cost of Anden Stud.

Lambplan participant – Ovine Brucellosis Accredited Free Flock
– Ovine Johne's MN3 Accredited.

All specially selected rams are HRF.

For further information, contact selling agents:

- **Elders Stud Stock Agent – Jon Sutherland, 0400 307 619**

4% Rebate to Agents who attend with buyer and who register their attendance at the front desk on the day.

Inspection of stock from 10.00 a.m. sale day or prior to sale by arrangement with Andrew Donnan, 0427 812 227 or Joel Donnan, 0428 514 406.

From the Anden Stud

Welcome to the **31st Annual Anden Stud Sale**. We are excited to present another outstanding line-up of quality stud stock.

In this year's sale we will be offering **221 lots**, made up of **107 White Suffolk** and **114 UltraWhite rams**, comprising:

- **20 Specially Selected Anden White Suffolk Rams**
- **87 Anden White Suffolk Flock Rams**
- **18 Specially Selected Anden UltraWhite Stud Registerable Rams**
- **96 Anden UltraWhite Flock Rams**

Our on-property auction will once again be interfaced with AuctionsPlus for the entire sale. We trust this platform provides all potential buyers with the opportunity to view the lots prior to auction and purchase from Anden Stud on the day.

As we celebrate our **31st Annual On-Property Ram Sale**, we reflect proudly on more than three decades of breeding top-quality White Suffolk sires. It has been a pleasure to share our passion while improving breeding programs and pushing boundaries within the breed. Since the beginning, our objective has remained consistent: to provide clients with a structurally sound, performance-based product, utilising LAMBPLAN and ASBVs to guide genetic selection.

We are pleased to once again present a quality line-up of UltraWhite rams to suit a range of client needs, whether you're looking to reduce shearing and crutching, or simply improve growth rates and structure in shedding flocks. The UltraWhite breed continues to lead the shedding sheep market, thanks to registered stud breeders embracing ASBVs to assist in selection decisions based on genetic traits. With a strong focus on data collection and performance, we are truly excited about the direction this breed is heading.

Over the years, we've enjoyed building friendships with fellow breeders and have many fond memories from Field Days, Conferences and Royal Shows.

Please note: This year we will not be offering a selection of Stud Ewes in the sale. However, private sales of White Suffolk and UltraWhite ewes are available, with inspections welcome by appointment.

We were once again proud to compete at the **Australian Sheep & Wool Show, Bendigo**, exhibiting **six UltraWhite rams and four UltraWhite ewes**.

We were thrilled when ewe **26-1009** was awarded **Supreme UltraWhite Exhibit**.

Participating in these events gives us a valuable opportunity to connect with fellow breeders, share experiences and discuss both challenges and situations facing our industry.

This year also carries special significance for our family following the passing of **John Donnan**, aged 94. John played an important role in the history of Anden Stud, having founded the original Kerangie Suffolk Stud with his wife Melva in 1971 before establishing Anden White Suffolk Stud with Andrew Donnan in 1989. A mentor, friend and lifelong farmer, John's passion for livestock and the land helped shape the stud we have today. When he passed his share of Anden on to Joel in 2016, it marked the continuation of that legacy into the next generation. His contribution to our family and to Anden will always be remembered.

Thank you for your continued interest in Anden Stud. We look forward to welcoming you to our sale on **Thursday, October 1st**.

Kind regards, The Donnan Family

Flock History

Anden White Suffolks

The Anden White Suffolk Stud (Flock No. 91) was founded in 1989 by Andrew and John Donnan. The foundation flock was built using Suffolk ewes from Kerangie and Stone Haven Studs, with a sire base introduced from leading White Suffolk studs and elite home-bred sires.

In 2016, John (aged 86) sold his share of the stud to Joel Donnan. Having grown up on the farm and worked full-time since 2011, Joel brought a strong knowledge of sheep breeding and a commitment to building on Anden's reputation. From the beginning, Anden has been driven by a passion for delivering the best genetics to commercial producers, with results at market reflecting the consistent performance of Anden-bred rams. Over the years, the stud has also enjoyed much success in the show ring, particularly at the Royal Adelaide Show.

Anden UltraWhites

2017 marked the beginning of a new era with the launch of the Anden UltraWhite Stud. For many years prior, Andrew and Joel had been developing a consistent line of sheep with key traits including fertility, moderate birth weights, sound structure, and strong growth.

The UltraWhite breed was established by blending elite White Dorper genetics with our best-performing Viewdale Poll Dorset ewes, supported using high-performance UltraWhite semen from Western Australia. The result is a line of sheep with excellent muscling, high-yielding carcasses, sound fat cover, and strong do-ability and hardiness, combined with an efficient shedding ability.

In early 2021, the UltraWhite Sheep Breeders Association of Australia Inc. was formed, with the breed receiving its official code (24) and Anden registered as Flock Code 0002. Joel was elected President of the association in 2024 – recognition of over a decade of work dedicated to establishing and promoting the UltraWhite breed.

For the 2026 sale, 18 UltraWhite rams (Lots 108-125) have been specially selected as registrable stud sires. They have been chosen for their performance data, structural soundness and breed type, ensuring they are ideal for both stud and commercial programs.

Flock rams, Lots 126-221, have been assessed with the same rigour to ensure we offer sires that will drive the breed and the industry forward.

Anden Speckle Park Cattle

Over the past five years, Anden has invested in top genetics from across the Speckle Park breed, purchasing leading stud cattle and embryos to form the foundation of a high-quality herd. All calves are performance-recorded with BREEDPLAN to provide accurate EBVs and support data-driven selection.

The Speckle Park breed offers a unique combination of low birthweight, high marbling, docility, and exceptional doing ability – traits that align closely with the objectives of our sheep breeding program.

In 2025, the stud was rewarded with success both in the show ring and on sale day, highlighting the strength of the program. Stud and commercial bulls are available year-round, with inspections welcome by appointment.

Acknowledgement

We sincerely thank all existing and new clients for your ongoing support. At Anden, our focus remains clear – to provide the industry with genetics that represent the way forward across both our sheep and cattle enterprises.

Anden's Breeding Program

Driven by LAMBPLAN for Real-World Results

At Anden, we're committed to breeding rams that deliver where it counts – in the paddock and on the hook. By combining proven genetics with practical, on-farm experience, our goal is simple: to provide sires that drive productivity, efficiency, and profitability for commercial lamb operations.

Central to our program is **LAMBPLAN**, the industry's leading genetic evaluation system. Through Australian Sheep Breeding Values (ASBVs), we can objectively measure traits that impact real-world performance – from growth rates and muscling to maternal efficiency. This ensures every ram we breed is backed by both data and practical application.

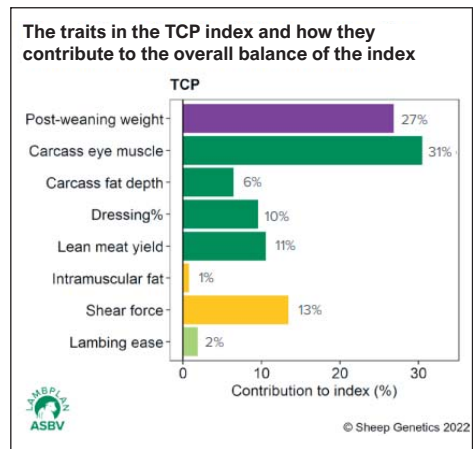

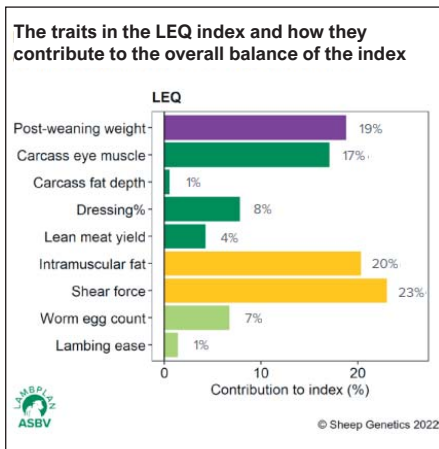

The result? Rams that don't just look the part – they perform, consistently adding value to flocks and supporting the long-term success of our clients.

This catalogue includes ASBVs for the following key traits:

- **BWT – Birth Weight:** Lower = smaller lambs at birth.
- **WWT – Weaning Weight (100 days):** Higher = quicker early growth.
- **PWWT – Post Weaning Weight (225 days):** Higher = strong later growth.
- **PFAT – Fat Depth:** Balance for finishing ability.
- **PEMD – Eye Muscle Depth:** More muscle, better shape.
- **LMY – Lean Meat Yield:** Higher = more saleable meat.
- **DRESS – Dressing Percentage:** Higher = more carcass weight per kg liveweight.
- **LE-DIR - Lambing Ease (Direct):** Higher = fewer lambing problems.
- **IMF - Intramuscular Fat:** More marbling = improved eating quality.
- **SHRF5 - Shear Force:** Lower = more tender meat.

We've also included two key indexes:

- **LEQ Index (15 July 2025):** For producers wanting better eating quality, with balance across birth weight, growth, and other traits.

- **TCP Index:** A well-rounded terminal sire index that balances growth, carcass traits, and lamb survival – ideal for commercial lamb producers focused on overall performance.

Our Approach to Indexes & Breeding

At Anden, we see indexes as a **useful guide**, but not the whole story. Every flock is different, and ram selection should reflect your own ewe base, environment, and target market. That's why we encourage a balanced approach rather than relying too heavily on any single index.

Some indexes, such as **TCP** and **LEQ**, can place a lot of weight on traits like IMF and SHRF5, which often have lower accuracy. While eating quality is an important focus in our breeding, we believe these indexes sometimes overstate their value to commercial lamb producers.

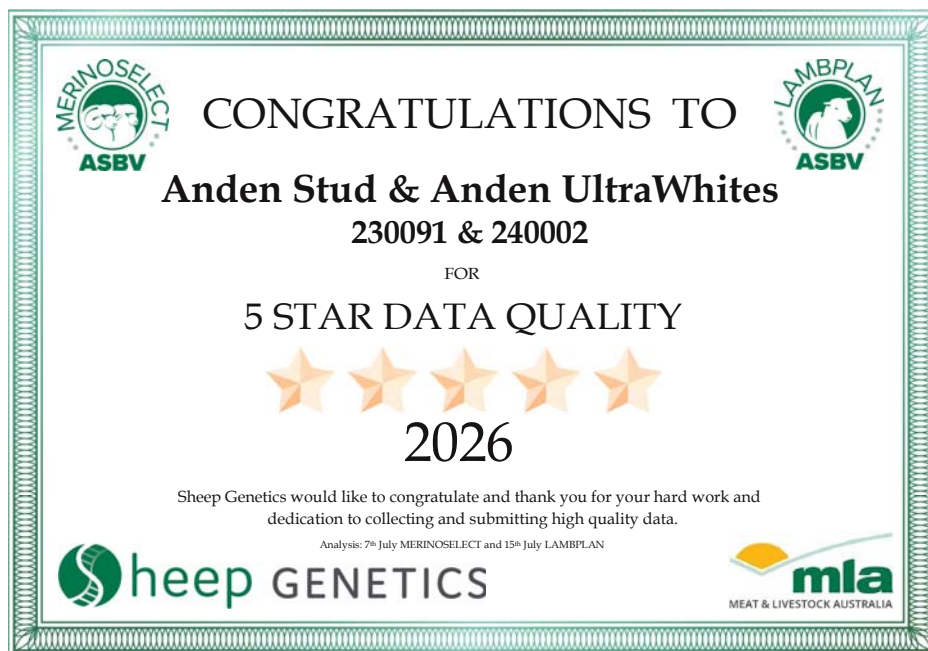

Instead, we place greater emphasis on **individual ASBVs**, which gives a clearer, more balanced picture of a ram's genetic potential. This way, you can select sires that deliver across growth, muscling, efficiency, and sound structure — the traits that matter most in prime lamb production.

Our rams are run in large groups under commercial conditions, with performance data collected early and accurately. What you see in the sale team is a genuine reflection of how they will work in your paddocks.

Note:

ASBVs are based on data submitted by breeders and trained operators. They're reliable tools to guide selection but still estimates – not guarantees.

At Anden, our goal is simple: **to breed practical, profitable rams that deliver real results for our clients.**

SIRE MEMO

Proven Performers in Anden Stud History

ANDEN WHITE SUFFOLKS

Anden 70007 – Record price at the 2008 Royal Adelaide Show – \$28,500.

Anden 140298 – Sold for a record price for a meat sheep – \$36,000 in 2015.

Anden 150277 – “Cruiser” – Record price for a meat sheep – \$68,000 at our 2016 sale.

Anden 190083 – Top-priced White Suffolk ram at \$12,000 in 2020. A moderate-sized ram full of muscle with excellent data.

Farrer 190111 – A ram that has consistently bred high-growth, high-yielding animals.

Farrer 200162 – Purchased from the Farrer sale. A ram breeding consistent, well-balanced animals full of meat, with outstanding data across all areas.

Illoura 210557 – Purchased in partnership with Kattata Well for \$30,000.

Summit Park 210185 – Semen purchased. A huge EMD ram with good eating-quality data.

Summit Park 220033 – Son of Summit Park 210185, also displaying huge EMD and good eating-quality data.

Farrer 220062 – Purchased from the Farrer sale in partnership with Omad. A very complete data set, with progeny expressing good growth and excellent carcass attributes.

New Sires Listed in the 2025 Drop

Anden 230324 – A neat, well put together ram structurally, with a combination of good data to match.

Bundara Downs 232828 – A stylish, large ram with good data, used to add structural correctness.

Kurralea 230237 – A clean-pointed, stylish ram with well balanced data.

Valma 230162 – A Poll Dorset ram used for extreme eating-quality data and thick carcass attributes.

Super White Sires

These sires are allocated 18 ewes each to be AI joined and lambled down as part of our largest lambing group. With a variation of sires included, this provides a good comparison over a large number of progeny.

Chandler 230098 – Farrer 230076 – Farrer 230300 – Yanco 210004.

White Suffolk Syndicate Ram Lambs

Anden 240038 – 240043 – 240092 – 240171

Top-performing young rams used as ram lambs to back up our AI program.

ANDEN ULTRAWHITES

Anden 170714 & Anden 170676 – The best two rams of the 2017 drop.

Hillcroft Farms 208545 – A real muscle sheep breeding consistently, purchased in partnership with Bundara Downs.

Hillcroft Farms 217180 – Champion Ram at Bendigo in 2022. Purchased in partnership with Bundara Downs.

SIRE MEMO

Anden 211100 – Keeper ram from the 2021 drop. A good all-round ram with muscle and type.

Bundara Downs 232646 – Purchased as a top young ram. Full shedding with a little more stretch and growth.

Anden 221113 – Semen retained. A powerful, full-shedding ram with good data to match.

Anden 221465 – Keeper ram. A full-shedding young ram that stood out with strong growth and a little more stretch.

Anden 221488 – Top-priced ram at our 2023 sale, selling to Bundara Downs for \$10,000. A very complete sheep that has produced excellent progeny.

New Sires Listed in the 2025 Drop

Anden 231077 – A big, powerful ram with high growth.

Anden 231180 – A thick, full shedding ram with plenty of grunt.

Anden 231411 – An August-drop ram producing structurally correct progeny with good lambing ease.

UltraWhite Syndicate Ram Lambs

Anden 241037 – 241134 – 241212

Top-performing young rams used as ram lambs to back up our AI program.

READING THE COLOUR

For the first time, ASBVs throughout the Anden sale catalogue have been colour highlighted to show where each animal ranks within the Sheep Genetics analysis.

Yellow = Top 1%
Light Pink = Top 5%
Light Blue = Top 10%
Light Green = Top 20%

The lower the percentile number, the higher the animal ranks for that particular trait.

The colours are designed as a quick visual guide to help buyers identify genetic strengths and compare animals more easily throughout the catalogue.

The colour coding should be used alongside the individual ASBVs, structure, pedigree and the breeding objectives of each flock.

Consigned to

Elders Rural Services Australia LTD

117 Broadway

Wagheproof VIC (TOWN/SUBURB)

Destination (if different) of sheep or lambs

Destination PIC (REQ: WA & TAS)

Details of other statutory documents relating to this movement e.g. health statement

Health Statement - National Sheep Health DEC

Have these sheep or lambs been raised consistent with the rules of an independently audited QA program on the property the PIC of which is shown above?

Yes ☒ No ☐ If Yes, give details: LPA

Have all the sheep or lambs in this consignment been treated with a Scabby Mouth Vaccination either at marketing or at least 14 days prior to their presentation for sale?

Yes ☐ No ☒ If Yes, give details: 1/9/27

Were all of these sheep or lambs bred by the owner or vendor?

Yes ☒ No ☐ If No, how long ago were the sheep or lambs obtained or purchased?

(If purchased at different times, tick the box corresponding to the time of the most recent purchase.)

A. Less than 2 months ☐ B. 2-6 months ☐ C. 6-12 months ☐ D. more than 12 months ☐

4 Are any of the sheep or lambs in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) as set by APVMA or SAFEWAT, following treatment with any veterinary drug or chemical?

Yes ☐ No ☒ If Yes, give details: (Record additional details in question 7)

CHEMICAL PRODUCT	DATE APPLIED	WHP	ESI (if WHP)
	/ /	/ /	/ /

5 In the past 60 days, have any of the sheep or lambs in this consignment consumed any material that was still within a withholding period when harvested, collected or first grazed?

Yes ☐ No ☒ If Yes, give details:

CHEMICAL PRODUCT	DATE APPLIED	GRASSING WHP	DATE FIRST FEED-GRAZED	DATE FEEDING/GRASSING CEASED
	/ /	/ /	/ /	/ /

6 Have the sheep or lambs in this consignment ever in their lives been fed feed containing animal fats? (See Explanatory Notes)

Yes ☐ No ☒

7 Please include any additional information below

eg. vaccination programs, animal health certification, additional declarations, etc.

MNP Sheep Program : MNS status : QTD Accreditation Free
OVINE BRUCELLA : Accredited Free : NO 2063 VS1212

Declaration

I, Joel Donnan, 1117 Willange - Woorelang Rd

Willange VIC 3485

DECLARATION

L P A

declare that, I am the owner or the person responsible for the husbandry of the sheep or lambs

and that all the information in part A of this document is true and correct.

I also declare that I have read and understood all the questions that I have answered, that I have

read and understood the explanatory notes, and that, while under my control,

the sheep or lambs were not fed restricted animal material (including meat and bone meal)

in breach of State or Territory legislation.

Signature* Date* 7 / 9 / 2026

*Only the person whose name appears above may sign this declaration, or make amendments which must be initialled.

Tel no. 0428514406

Fax no. 03 50812255

Email. andenstud@bigpond.com

Part B To be completed by the person in charge of the sheep or lambs while they are being moved.

Completion of this part is optional in SA and VIC.

Movement commenced: / / 20 : : (am/pm)

Vehicle registration number(s):

I, the person in charge of the sheep or lambs during

the movement and declare all the information in Part B is true and correct.

Signature Date / / 20 Tel no.

*When more than one truck is carrying the sheep or lambs, other vehicle registration numbers are to be recorded.

NATIONAL SHEEP HEALTH DECLARATION

SECTION A – Biosecurity Information

1. All consigned sheep are from a Livestock Production Assurance (LPA) accredited property? ☒ Y ☐ N

2. The number of different sources of sheep that have been introduced onto the consignment property in the last 5 years is:
0 (closed flock) ☐ 1-5 ☐ 6+ ☒ Rams Only ☐

SECTION B – Animal Health Information

3. All consigned sheep are from a flock that is free of virulent footrot? ☒ Y ☐ N

4. All consigned sheep are from a flock that is free of benign footrot or scald? ☒ Y ☐ N
If (N) please provide further information below

5. All consigned sheep are from a flock that is free of lice? ☒ Y ☐ N

6. All consigned sheep are from a flock in an ovine brucellosis accreditation scheme? ☒ Y ☐ N
If Yes, Flock Accreditation No. (except Old) **2063** Expiry Date **30 / 4 / 27**

7. All consigned sheep are Johne's disease (JD) Approved Vaccinates? ☒ Y ☐ N
If Yes, I have been continuously vaccinating all retained lambs in the consignment flock against JD for _____ years. (Vendor bred sheep only)

8. All consigned sheep are from a SheepMAP flock? ☒ Y ☐ N
If yes, Status **MN3** Year commenced **1998** Certificate Number **V51212**

*See explanatory notes on back page for further information

9. All consigned sheep are from a flock with a negative test for JD? ☒ Y ☐ N

If Yes, which test? **FAECOL 3501** Date of test **23 / 5 / 24**

10. Any other JD management practices carried out on the property?

Annual Vet Audit & 6 Monthly Internal Audit

11. Any other relevant health information

SECTION C – Treatment Information of Consigned Sheep

Treatment type	Product	Date of last treatment
External Parasite Treatment	Avenge Plus	19-Aug-26
Internal Parasite Treatment	Virbamec	07-September-26
Other treatments		
Vaccination (other than JD)		

Declaration (see explanatory notes for further information)

I **Joel Donnan**
